

Conrad O'Brien's Chester County lawyers have provided a broad range of legal services as solicitors and special counsel to local governments, industrial development authorities, economic development agencies, lending agencies, municipal authorities, water and sewer utilities and zoning hearing boards since 1984. With this background, we have also developed a reputation for guiding business clients through project planning, strategy and implementation while interfacing with local and state government and regulatory agencies, as well handling banking transactional work. Today, we remain as trusted counsel to local governments and other public entities, as well as to the business community in a wide range of real estate, land use, finance and general business matters. Further, and consistent with the firm's core mission, we are also well prepared to handle the litigation matters that have become an inevitable part of doing business, both in the local government and business arenas.

- Solicitorships
- Representation of Other Public Entities
